

24 | A Around 3 p.m., uh, we were -- got a request to use
25 | our sifting equipment. They had found an area, a --

152

1 a burn pit type area, behind the garage next to
2 Steven Avery's trailer. And they had been looking in
3 there and they wanted to use our sifters. We had
4 previously loaned them out for another assignment in
5 the gravel yard, and so they had asked for them
6 again.

7 And at that moment we didn't have
8 anything else to do, so we went along with them
9 to help sift. And it was a -- maybe a
10 four-by-six foot area on the ground. A small
11 depression behind the garage. And it looked like
12 it had been -- uh, some fire going on there.
13 There looked like a lot of the remains of burnt
14 tires, there was the frame from some sort of car
15 seat, and some ash on the ground.
